

# YASH PAMECHA

Software Developer

yj69771@gmail.com

7869265789

github.com/pamechayash?tab=repositories

## EDUCATION

**Btech Computer Science(Specialization in DataScience) 2020-24, JECRC UNIVERSITY, Jaipur**  
GPA - 9.3/10 avg

**10th and 12th standard, Mandsaur International School, Mandsaur**  
9 cgpa in 10th and 80% in 12th

## EXPERIENCE

### Trainee

Amazon

06/2022 - 07/2022

Letter of acknowledgement->

<https://github.com/pamechayash/Amazon/blob/main/acknowledgement.png>

Achievements

- -> **I got the opportunity to gain Machine Learning (ML) skills from ML Engineers and Data Scientists at Amazon. -> they provide us with In-depth knowledge of key ML topics like Supervised Machine Learning, Unsupervised machine learning, Deep Learning. - -> How to tackle large data and Frame real-life problems.**

## ACHIEVEMENTS

Completed training on Machine Learning by Amazon

Got selected as a lead for my university for D2C now known as Unstop.com in 2021.

## SKILLS

MERN Full Stack Development

Machine Learning

Statistics

Python

SQL(Mysql)

C++

Problem Solving(DSA)

Java

Oops

C

## PROJECTS

**MACHINE LEARNING ALGORITHM ANALYSER TOOL | React.js , Flask , Python( ML ) (10/2022 - 12/2022)**

- OBJECTIVE-> it makes MACHINE LEARNING EASY To Understand. enables users to **play with different algorithms on their data**.
- Data Acquisition -> **capability to fetch data from the server URL** of a CSV file.
- it runs complex Machine Learning Algorithms with a click without a single line of code.
- gives all important **classification and regression metrics**.
- provides proper **visualisations of how accuracy varies with hyperparameters**.
- it enables users to change different hyperparameters and Run algorithms again and again.
- VIDEO\_DEMO -> <https://www.youtube.com/watch?v=elWyGWDCdBA>
- CODE -> <https://github.com/pamechayash/MachineLearningAlgorithm-PlayGroundTool-Makes-ML-Easy>

**PORTFOLIO | EXPRESS.js, REACT.js , NODE.js**

- A website which represents me in a better way and provides you with information about my Work.
- visit -> <https://pamechayash.github.io/PortFolio/>

**BANK MARKETING RESPONSE PREDICT | MACHINE LEARNING | PYTHON**

- Worked on data of more than ten thousand and many features like age, balance and many more.
- libraries -> Numpy , Data preprocessing using pandas , Sklearn , Seaborn , Matplotlib and all other ML concepts
- Code -> <https://github.com/pamechayash/Bank-marketing-response-predict>

**CLIM App | | FLUTTER | | WORK WITH API.**

- tracks Current Location.
- show Weather details.
- Code -> <https://github.com/pamechayash/ClimateApp>
- VIDEO\_DEMO-> <https://www.youtube.com/shorts/Ofv1GV50iU>
